Partnership with Parents/Carers Policy

Parent/carer involvement is an essential element of the care at Once Upon a Time Nursery. We will ensure that all parents/carers of children in our care have the opportunity to participate in nursery activities and we will keep them fully informed of all matters concerning their children.

Implementation:

Parents/carers are welcome to visit the nursery at any time and without prior notice.

Parents/carers will be kept fully informed of their child's development through our communication books, parents evenings and Key Workers.

Parents/carers will have full access to their child's records. They will also be welcome to discuss their child's development with a staff member at any time.

Our policies and procedures are available on the website and in the entrance hall but if a parent/carer wishes to have them to take home then a printed copy will be made available.

Parents/carers are encouraged to make suggestions with regards to improvements of our facilities, activities, procedures etc. There is an annual questionnaire for parents and a suggestion box in the main entrance.

Any meeting held with Parents/carers and staff which results in changes

to our Policies and Procedures will be promptly reported in writing to all parties.

An Information Pack, detailing operational procedures and how to see all relevant policies and procedures, will be provided to all families of children attending nursery.

Staff will always welcome anyone coming to the nursery in a positive and friendly manner.
